ASSISTANCE OF LEGION ASKED

To Secure Liberty of Former President of Guatemala.

SON OF CABRERA SENDS A PETITION

Says Father Languishes in a Felon's Cell.

Young Cabrera Explains Situation in Guatemala to Chief of American Legion — Hopes for American Sympathy.

Washington, April 4.—Manuel Estrada Cabrera, son of Estrada Cabrera, former president of Guatemala, who is in prison in Guatemala city, today appealed to the American Legion to support him in his effort to gain his father's freedom.

In a long telegram to F. W. Galbraith, commander-in-chief of the legion, the young man pointed out that President Cabrera, who as head of the Guatemalan republic was the first in Central America to follow the United States into the great war, today "languishes in a felon's cell in Guatemala, a political prisoner actually in the custody of a minister of war, who is an ex-German soldier."

Young Cabrera virtually accused the Wilson administration of bad faith in refusing to take active steps to bring about the release of the deposed president, who, he asserted, was imprisoned as a result of the "arbitrary violation of a solemn pact entered into under the protection of the American flag."

He stated he is hopeful that President Harding and Secretary Hughes will prove more sympathetic and asked that the legion lend its support because of the aid Cabrera gave the allies during the war.

President Cabrera, the telegram stated, was overthrown through treachery inspired by German estate owners, whose properties he had seized pursuant to the suggestion of President Wilson.

"In spite of a formal capitulation guaranteeing the safety and the inviolability of his property, suggested by and drawn and signed by the American legation in the presence of the American minister," the telegram continues, "he was nevertheless not only thrust into a dungeon in the common jail, but also robbed of everything he possessed."

CREDIT SYSTEM IS DISCUSSED

Producers and Exporters Are in Conference.

EFFORT TO RELEASE BIG STORE STOCKS

Government Officers and Financial Workers Work Together.

Assurance Given That Government Will Stand Behind Any Movement That Will Start Business To Moving.

Washington, April 4.—The problem of providing credit to producers and exporters and to effect a release of enormous stored stocks of surplus commodities in domestic markets, was up for solution, today, at a special conference of government officials and financiers called together to find a remedy for conditions that are perilous to the farmers of the United States. The meeting called by officials of the war finance corporation, took up the handicaps of a financial nature which are menacing American foreign trade.

Secretary of Commerce Herbert Hoover, Secretary of Agriculture Wallace, Secretary of the Treasury Mellon and officials of the war finance corporation entered the conference with a confident assurance for the bankers of material and moral support from the government in any projects which the financial groups may work out that will revive the movement of American goods to markets now in need of them.

The bankers present, representative of the leading financial groups of the South, East and West, were impressed with the suggestions of the various government officers for greater private banking support for export corporations. Officials of the war finance corporation especially were urgent in their pleas that leading bankers must take a more vigorous position in restoring lost confidence in foreign markets and that the present problem, being one essentially of credit, should be solved through the establishment of export corporations with long-time credit facilities.

One of the plans suggested to the banking groups, today, contemplated the launching of numerous export corporations of a regional character, to meet the credit needs of growers in the various sections of the country. The success of the recently formed \$7,000,000 export corporation at New Orleans to provide credit for larger cotton shipments to Germany and other parts of Europe, was cited by a number of conferees for the government. Similar corporations can be formed in the wheat, wool, livestock and other staple product belts. It was declared, with capitalizations of \$5,000,000 and upward, with reasonable certainty of adequate support from the business interests vitally affected.

While one of the prime objects of the conference today, was to bring relief to the cotton industry and if possible, open up channels now blocked for the movement of export cotton, the whole question of larger export credit for all of the main American products in demand overseas was discussed.

EX-EMPEROR IS DELAYING

Charles Still Remains in Hungary, Says Report.

STORIES OF FUTURE PLANS CONFLICTING

Intimated Charles Still Clings to Hope.

Will Not Leave Hungary as Long as No French or British Troops Are Sent Against Former Ruler, It's Said.

London, April 4.—Charles, ex-emperor of Austria, whose coup to win back the throne of Hungary proved a complete failure, had not left that country early today and reports as to his future plans were again conflicting.

The latest despatch at hand as this is called, was one from Vienna to the Central News, which said that the Swiss legation there had announced the ex-emperor would leave for Switzerland today. It added that he would be escorted to a remote village in the Canton of Lucerne.

Previous advices had reported him to be in St. Gallen, Hungary, whether he went after the frustration of his dynastic coup. Meanwhile, the report persists in some quarters that the former monarch is merely "stalling."

A despatch to the Daily Chronicle, from St. Gallen, dated Sunday, says that Charles does not intend leaving Hungary and quotes a high military officer in close touch with the ex-emperor as authority, adding that Charles certainly will not leave "as long as no French or British troops are sent against him."

But the little entente, Roumania, Czechoslovakia and Jugoslavia reinforced by Italy, is exerting powerful pressure with the view to making it plain to the former monarch that there must be a prompt and positive end to his flirtation with his lost throne. All these powers, according to the Morning Post, have sent an ultimatum to the government of Hungary demanding that Charles leave that country at once.

A BUSY WEEK AT WHITE HOUSE

Convening of Congress but One Week Away.

IMPORTANT DECISIONS MUST BE REACHED

Policies To Be Worked Out During the Week.

President Is Expected To Deliver His First Message to Congress in Person—Herrick as Ambassador.

Washington, April 4.—With the convening of the extraordinary session of the new sixty-seventh congress but a week away, President Harding, today, faced the busiest week he has had since entering the White House, a month ago.

A veritable mountain of matters are demanding executive attention before the assembling of the new congress. Decisions must be made this week as to the president's policy on the question of legislation which congress will be called on to consider immediately. Policies must be worked out, tentatively at least; a number of appointments, including diplomatic as well as domestic, must be settled upon and in addition to all these, the president must get at the writing of his first message to congress.

The press of business which the new president has experienced in the crowded month he has been in the White House has precluded any attempt so far, to actually get at the construction of his first communication. The president has been able to devote only a brief amount of time to it, but it is said that he already has the major part of it roughly outlined in his mind, so that it setting down on paper will not take long, and he can find time to tackle the job.

While no formal announcement has been made, it is expected that President Harding will deliver his first message in person, thus continuing the practice inaugurated by Woodrow Wilson. President Harding is a firm believer in the potency of the personal touch in his official dealings. He feels that his message will "get across" better with members of the house and senate if he can give it to them face to face, rather than trust its delivery to the impersonal attention of a reading clerk.

Message Important. A message which Republican leaders here attach to Harding's first message can hardly be exaggerated. They feel that not only will the ears of the whole country be turned toward Washington, next Monday, to hear the first authoritative outline of the new administration's policies, but the eyes of the world also will be focused in this direction.

The Harding inaugural dealt with the question of foreign policy only in broad, general terms.

Foreign nations are anticipating that the Harding congressional communication may get down to brass tacks.

It is a foregone conclusion, however, that the major part of the first message will be devoted to domestic matters, particularly the big three—taxation, tariff and the railroads. For the last four weeks these three problems, with all their multitudinous side issues, have been the subjects of protracted and contentious conferences.

Out of these conferences, the president has been able to formulate, roughly, at least, a foundation on which to build. The results of this carpenter work are expected to be revealed to the public one week from today.

TRAGIC END TO A BOOZE PARTY

Three Dead, One Wounded and Woman Missing.

MICHIGAN CITY HAS A BLOODY AFFAIR

User of Gun Kills Himself After Killing Officers and Wounding Restaurant Proprietor.

Michigan City, Indiana, April 4.—Three dead, one seriously wounded and a woman missing, is the aftermath, today, of a tragic shooting affray that terrified scores here last night. Four persons are held by the police pending a thorough investigation. J. M. Zimmerman, night captain of police and Paul Spencer, a patrolman, were shot and killed by William Klesau, a former railroad fireman, who later ended his own life. Helen Conway, a member of the party which was with Klesau, is missing and it is feared she may have drowned herself in the river here. Harry Arndt, a restaurant man, has bullet wounds in each leg from shots fired by Klesau.

Those held by the police are Paul Gibson, William Caruth, James Guster and W. M. Hayes.

The shooting is said to have followed a drinking party, of which Klesau, the two women and Caruth were members. It occurred on the main street of this city and scores of passersby were frightened by the shooting.

According to an eye witness, Klesau, Caruth and two women hired a taxi cab, early in the evening and set out in search of liquor. Later, they returned to the hotel where they had hired the cab. Klesau and the Conway woman, it is alleged, were quarreling and Zimmerman and Spencer were shot when they sought to halt the quarrel.

After shooting the two policemen, Klesau forced three men to alight from a passing automobile and compelled the driver to take him to the restaurant run by Arndt. There he demanded a gun and as Arndt turned to comply, Klesau fired twice, the bullets entering Arndt's legs.

Klesau then went back to the automobile. The driver had fled and Klesau tried to start the car, but failed and he then fired a bullet into his own brain.

GREAT STRIKE LOOMING NEAR

Believed Entire Triple Alliance Will Go Out.

ENGLISH CABINET IN EMERGENCY MEETING

Lloyd George and Others Think Strike Inevitable.

Railway Workers and Transport People Prepare To Join the Miners in Effort To Force Granting of Demands.

London, April 4.—A general strike by the entire triple alliance, railway, transport and transport workers is to be reckoned with, the cabinet concluded at a conference held just before the opening of the parliamentary session called by King George as an emergency measure for this afternoon.

Premier Lloyd George and the other ministers are understood to believe such a strike is inevitable and to have discussed plans to cope with it.

If the rail men and transport workers actually join the miners, it will be the first "triple alliance" strike in the history of the kingdom. In every previous crisis such a general walkout was averted at the eleventh hour.

Strong police detachments were sent to the White House and the London streets to guard against any outbreak. Lord Riddell spent the Sunday afternoon at the club at Ladbroke. Other coal magnates, titled and otherwise, did the same.

Every hour brings fresh proof of a solidarity in the ranks of British labor such as has not been recorded in any previous industrial crisis. The pumping crews are falling in line behind the miners' union and call men and transport workers everywhere are unhesitatingly declaring their intention of standing by the miners. If necessary, by walking out immediately. Stoppage of work in the mines at Scotland, which looked somewhat behind those of the rest of the kingdom, is now complete. Several important steel plants dependent on coal have given a week's notice to their men that they will have to shut down.

Waiting Parliament. London, April 4.—All eyes in Britain were fixed, today, upon parliament, where the government is expected to reveal, this afternoon, its attitude toward the great coal strike which has laid the practically every mine in the United Kingdom and threatens to extend to a walk-out of the miners' partners in the "triple alliance"—the railway men and transport workers.

Both houses of parliament were called by King George as an emergency measure. Their convening will mark the beginning of a determined contest between capital and labor and spirited debates are looked for when the government's spokesmen announce their plans. Premier Lloyd George is expected to lay them before the nation's lawmakers in person.

Hitting was reported, early today, from Scotland, where striking miners returned to work. At Falkirk, a mob of strikers and sympathizer attacked non-union miners guarding the railway. Naval men are being drafted to replace the crews manning the great development of the week end was a countrywide movement of union workers, notably rail and transport men, to support the miners. Meetings held in all parts of the kingdom adopted resolutions to send delegates to a general labor conference to be held Wednesday. To forestall a sweeping sympathy strike order by that conference will be the government's main task.

Premier Lloyd George arrived at No. 10 Downing street shortly after noon, and summoned the cabinet for a pre-parliamentary conference.

Washington, April 4.—The case of France against Germany was presented, today, by Rene Viviani, former French premier, to Senator Knox, of Pennsylvania, author of the congressional resolution to end the technical state of war between the United States and Germany, which Republican leaders are preparing to join through the new congress.

A protracted conference took place between Viviani and Senator Knox at the latter's residence here, which, it is understood, was similar to that held last week by the French envoy with Senator Lodge, of Massachusetts, chairman of the senate foreign-relations committee.

Domestic conditions in France, as well as the international problems besetting her, especially those involving her efforts to compel Germany to make adequate reparations for the havoc she inflicted upon the French people, were described by Viviani to Knox, it was said.

JEWELL SOUNDS WARNING TODAY

Says Rail Executives Are Preventing Peace.

REFUSING TO DEAL WITH UNION HEADS

Sixteen Railroad Labor Organizations Want President To Call Conference.

Washington, April 4.—National peace on the railroads is threatened by the refusal of the railroad executives to meet with the representatives of the men.

This was the warning given to President Harding by the sixteen railroad labor organizations, speaking through R. M. Jewell, president of the railway employees' department of the American Federation of Labor, who was called into conference at the White House, this afternoon.

The president was urged by Jewell to call the railroad executives and the union heads into conference, it was learned. Jewell refused to discuss the conference with the president, but, according to the labor leaders, he emphasizes three things:

The railroad workers will not accept a reduction in wages, while the cost of living continues at the present rate.

The railroad workers demand continuation of their national agreements, which provide for national adjustment boards and will not stand for compulsory arbitration as proposed by Senator Cummins, of Iowa.

A roundtable conference between the railroad executives and the representatives would lead to the adjustment of all existing difficulties.

THE KU KLUX KLAN ENTERS A DENIAL

Has Nothing To Do With Branding and Flogging of Negro.

Cincinnati, April 4.—Denying any connection with the branding and flogging of a negro, near Joliet, Texas, last Friday night, the grand master of the Ku Klux Klan, today, issued the following statement:

"The Ku Klux Klan absolutely repudiates all connection with the branding and flogging of a negro, near Joliet, Texas, last Friday night, and is even now attempting to trace the parties who are responsible for this misuse of the Klan's name and insignia. Irrespective of the guilt or innocence of the negro, the inviolable empire shall hunt down the men who did it, if only to compel respect for the Klan and make outsiders keep hands off its name and emblems."

The Klan recently was charged with attempting to drag a man from his home in a southern city. The wife of the man prevented this by threatening to shoot. The Klan also denies this charge and captured three of the five men implicated in this attempt.

STATEMENT MADE ON ARMY OF OCCUPATION

American Force Will Not Be Reduced Until July 1, 1921.

Washington, April 4.—The American army of occupation in Germany will not be reduced in size before July 1, 1921, the war department announced today. The previous policy with regard to the army of occupation, has been that men whose enlistments have expired would be returned and no replacements sent, thus providing a gradual reduction of the size of the force.

Secretary Weeks said, today, that due to a lack of funds for transportation, every effort will be made to hold the size of the army of occupation at its present size, without bringing any of the men home before July 1.

Mr. and Mrs. John Black, of Cleveland, were guests Sunday of Mr. Black's parents, Mr. and Mrs. D. E. Black, of the County Children's home, south of the city.

RAILROAD SHOPMEN GIVEN A PROPOSAL

Pennsylvania Company Would Reduce Workers' Pay.

Pittsburgh, April 4.—Pennsylvania railroad shopmen, numbering 44,000, according to the company's estimate, were today asked to accept a twenty-seven percent reduction in wages or a cut of from eighty-five to ninety cents an hour, by the general managers' committee of the company, at a conference now in progress here.

The actual wage cut proposed is nineteen cents an hour, or \$1.25 a day, and would affect all monthly pay. The reduction, however, is a cut of from eighty-five to ninety cents an hour, by the general managers' committee of the company, at a conference now in progress here.

Shopmen of way and signal men refused proposed wage cuts, but week and their wages will go to the federal railway labor board.

EXTRA YEAR OF SCHOOLING NEEDED

Eight Thousand Teachers Would Be Required.

Columbus, April 4.—It would require 8,000 teachers, who at \$150 a year would draw \$1,200,000 in salaries, to give retarded pupils of the state an extra year of schooling. A survey of 150,000 pupils recently by teachers of the state, under direction of the state department of public instruction, showed 24.5 per cent retarded at least one year. Carrying out this proposition for all the pupils of the state, Vernon M. Hiegel, state superintendent, points out, would mean approximately 240,000 in all. In cities, the survey showed, 23.2 per cent of pupils are retarded, while in villages and rural districts it amounts to 25.9 per cent.

More Complicated.

New York, April 4.—The Hickman dilemma over where to stage the Dempsey-Carpentier battle was made more complicated, John L. Soxsmith, a wealthy Spokane, Washington, lumberman, is responsible. Soxsmith, according to a report going the rounds, has offered Hickman \$50,000 above the best offer received by Hickman. It is believed he may stage it at or near Coeur d'Alene, Idaho. With no less than a dozen tempting offers from syndicates on two continents, Hickman will make a final decision during the present week. He has promised to name the site of the contest next Saturday. New Jersey still stands out a favorite in the betting to land the match.

CHANGE NOTED IN SITUATION

Observers Predict Peace in Ireland Soon.

LLOYDS DECLINING WAGERS ON ISSUE

Sinn Fein Willing To Negotiate Peace on Basis of Status of Full Dominion.

Dublin, April 4.—The situation was expressed by competent observers as the Irish situation had undergone a considerable change for the better since St. Patrick's day. A month ago Dublin decided the peace prophets, but today predictions that there will be a settlement of the controversy in the near future are universal. Lloyd declined to accept late offered during the week that peace will be brought about before August.

Outwardly conditions have not improved. There has been no cessation of warfare in any part of the disturbed districts, and the trouble is spreading to Ulster.

Factors serving to stimulate the optimistic view of the situation are the frank admission of Premier Lloyd George of the government's failure to solve the Irish problem, the appointment of a Catholic viceroy, Eamon de Valera's latest pronouncements, which are interpreted as showing the willingness of the Sinn Fein for what is deemed a reasonable compromise, England's internal trouble, which are declared to be intensified by the coal strike, the repudiation of the partition act by southern Ireland, the admitted difficulty of establishing the Ulster parliament, the blockade attached in Ireland to the report of the American committee of one hundred, President Harding's reported endorsement of the American royal committee's campaign, and a rumor that United States Senator Keegan is coming to Ireland as President Harding's representative to make an investigation.

Government circles do not conceal their anxiety over the prospect that the Sinn Fein will sweep southern Ireland and win an overwhelming majority of the seats in the southern parliament. With the Nationalists and Sinn Fein co-operating in the north, the task of establishing the Ulster parliament is recognized as fraught with political hazards. Many persons continue to express the belief that the government will abandon its attempt to establish the parliament and endeavor to arrange a truce before the date of the election.

It is confidently asserted here that the Sinn Fein would be willing to negotiate peace on the basis of a status of full dominion. A rumor that the Daily Express has appointed a committee to negotiate with former enemy countries is denied.

DECLINE IN PRICE OF LIQUOR FOR SICK

Prohibition Officials Venture a Prediction Today.

Washington, April 4.—A decline in prices of liquor for the sick, was predicted, today, by prohibition officials.

Whisky, wine and other medicinal liquors, under the latest government order, are being bought by druggists direct from distilleries. This cuts out the middleman's profits.

Officials in charge of enforcement said, today, they have made it possible for retail druggists to save more than twenty-five per cent. In the cost of medicinal liquors and that this reduction should at once be reflected in a lower charge to the public.

First Real Workout. The members of the local baseball club turned out at Lincoln park, Sunday afternoon, for their first real workout of the season. Most of the players have not had a ball in their hands since last season, but believe they will round into shape in short order. There were a number of players out for trial and all but one of last season's players took advantage to loosen their arms.

GOVERNMENT TAKES MINES

England Will Control All Coal in Empire.

MINERS MUST NOW FIGHT GOVERNMENT

Premier Lloyd George Makes an Announcement in Opening of Parliament.

London, April 4.—Premier Lloyd George, in opening today's parliamentary emergency session, called by King George as a result of the great coal strike, announced the government had taken over the control and direction of all coal in the United Kingdom.

This converts the momentous battle between miners and mine owners into one between the miners and the government, with the owners a vitally interested third party.

The premier prefaced his statement, by reading King George's emergency message calling parliament into session a week prior to the originally appointed date.

He announced the parliament debate on the strike will begin tomorrow.

News of disorders at idle coal mines is becoming more frequent hours. Clashes have occurred at the Jacksade mines in Nottinghamshire. At Rhondda, striking miners forced the managers and officials to leave the mines.

DR. LINCOLN M'CONNELL HERE TOMORROW NIGHT

Last Attraction of High School Entertainment Course.

Dr. Lincoln M'Connell will lecture at the departmental school auditorium tomorrow night as the closing number on the Harding High School entertainment course. Dr. M'Connell appeared on the local Chautauqua program some time ago and is universally known as a platform orator of the top-notch class. The title of his lecture tomorrow evening is not known, but it is assured that he will present something full of interest and sound facts which will not be lacking in plenty of keen wit and "pep."

The seniors consider themselves fortunate in obtaining M'Connell as the last number, so a worth-while and pleasant evening is assured for those who attend the lecture. The entertainment will begin promptly at 8 o'clock.

GIVES TANLAC CREDIT FOR SPLENDID HEALTH

T. J. PARKER 1240 Juncon Street, Seattle, Wash.

"I used to think all the Tanlac testimonials were exaggerated, but I have felt thankful a thousand times I ever believed in it strong enough to give the medicine a trial," said T. J. Parker, well-known salesman for Carey's Clothing Store residing at 1245 Juncon St., Seattle, Wash.

"Several years ago I commenced having periodic spells of sickness and a few months ago I had an attack that I thought would finish me. When I did finally get up, I was scarcely able to go. I had no appetite and what little I forced myself to eat caused so much gas on my stomach I could hardly get my breath."

"At last I was often so bloated I couldn't breathe while lying down. I had to get up and stretch myself for air. At times I had cramps so bad I couldn't stand."

"My liver was sluggish and sometimes I got so dizzy I would nearly fall. I felt tired and miserable all the time, couldn't even sleep and for days at a time I wasn't able to go to work."

"Well, a friend of mine finally got me to try Tanlac, and it certainly has done a good job for me. My appetite is fine now and although I am eating just anything I want and as much as I please, my stomach never gives me the least trouble. I have put on weight, my strength has come back to me and I am now enjoying the best of health."

"All the men at the store know Tanlac put me back on my feet and I want to give this statement for what it may be worth to others for air. At times I had cramps so bad I couldn't stand."

Stock Market Shows Effect of a British Report.

New York, April 4.—The resolution adopted by the British railway and transport workers, supporting the striking miners, caused an uneasy feeling among traders at the stock market opening today. The bank statements were very favorable and showed remarkable improvement over the previous week. These conflicting factors were reflected in an irregular tone during the initial trading. Studebaker was in active demand and rose 1 1/4 to 74 1/4. Mercantile petroleum rose two points, but Royal Dutch declined 1 1/2 to 60 1/2.

BESLER DODGES ALL QUESTIONS

An Evasive Witness Before Rail Labor Board.

RAIL PRESIDENT IS UNSATISFACTORY

Insists His Subordinates on Central Railroad of New Jersey Should Be Called.

Chicago, April 4.—An evasive witness before the rail labor board, Besler dodges all questions, insisting that those who are his subordinates should be on the stand rather than himself, William C. Besler, president of the Central Railroad of New Jersey, proved an unsatisfactory and evasive witness when he appeared before the United States labor board, today, in the hearings of the national agreement.

A successful executive never undertakes to carry out details. He trusts them to subordinates. That is the man to question, not me. Evading direct answers throughout the questioning, Mr. Besler actually repeated that other employees ought to be summoned to answer the questions put to him.

"I've never been afraid to have my smart men around me. I might lose my job," President Besler said. "It was my job to let subordinates do it to somebody who knew it better."

T. R. Loomis, president of the Lehigh Valley railroad, who was scheduled to appear before the labor board, today, was excused on receipt of a letter from that executive that he had no valuable information to give the board.

A NEGRO MURDERER SURRENDERS TO POLICE

Confesses He Kills Two Colored Women in Columbus.

Columbus, April 4.—"My life means nothing to me at my age and I trust in God to take care of me," said James Conwell, fifty-seven, colored, who gave himself up to the police and confessed that he killed Mrs. Amanda Paxton, sixty, and Mrs. Georgia Watson, forty-four, both colored, Saturday night.

Conwell said that the double murder, which occurred in the home where the three lived, No. 25 Grandfield avenue, took place "in a fit of passion" and that "at heart I'm not a bad man."

Pending arrival of her daughter, Mrs. Grace Shelton, of Boston, Massachusetts, the body of Mrs. Paxton is being held at Adams' morgue.

Mrs. Watson's body will be held at Whitaker's morgue until relatives from Chicago arrive.

UNITED STATES IS WITH ALLIES

(Continued from Page One.)
pay. This realization on the part of Germany will not be altered in any way by any changes which may take place in the international policies of the country. Every responsible group, particularly the workmen of Germany, are imbued with the determination to do all that lies in their power to help in reconstructing the regions which have been devastated."

Fundamental to this determination is the sober conviction on the part of responsible circles in Germany that an early removal of all traces of the devastation caused in France is to the best interest of Germany. It is the consensus of opinion, also, that the proposals made by Germany in regard to reparations must consider fully the financial necessities of the allies and associated governments and particularly of France.

Two Considerations.
"In view of the foregoing, two considerations in regard to reparations present themselves, both of which are important. These considerations are, first, the matter of rehabilitation of the devastated regions and second, the immediate establishment by Germany of an actual sum of cash money in foreign exchange of important proportions."

"In addressing ourselves to the first particular, namely, the rehabilitation of the devastated region, certain facts are at once apparent. For four years, ten of the eighty-six departments of France served as the theater of the war and sustained the severest blows of the conflict. In these ten departments a number of cities, towns and villages are either partly or entirely destroyed and wide stretches of fertile farming land were laid waste. Only a little has been accomplished toward the rebuilding of homes, the reoccupation and the recultivation of the land. In the two years that have elapsed since the ending of the war. For the immediate proffered labor, technical advice and material assistance. These offers have not been accepted, nor have they even reached the point of diplomatic exchange."

The Reason Plain.
"The reason is not far to seek. Peculiar though it may seem, there exists in France only a limited degree of concern for the rehabilitation of the devastated region. Advance indemnities have been given to the former occupants of the soil and these occupants have removed to other parts of the country and taken up their abodes there. The salvaging of the abandoned war materials and the cleaning up of the war areas has been undertaken by influential groups of promoters whose making no effort to expedite the performance of their contracts. The fact that influential opinion in France sees in the devastated regions a remarkable opportunity for a political agitation which will always make a deep impression in the minds of the people of France and on foreigners, has an important bearing on the issue. The government does not desire to see hate perpetuated between nations.
French Proposals.
In accordance with this purpose, it intends to submit fresh proposals on

this subject to the government of France, the details of which are now under consideration and the subject of discussion with the laborers of Germany. Should the government of France entertain objections to the employment of numbers of German laborers in the areas undergoing reconstruction, the government of Germany stands ready to offer to France good offices and resources in whatever form is acceptable.

"In respect of the second consideration, namely, the immediate establishment by Germany of an actual sum of cash money in foreign exchange of important proportions, it is obvious that Germany can fulfill this obligation only through large increases in the volume of her exports. The memoranda prepared by the economic experts of Germany for use at the conference at London, demonstrated how huge this increase in Germany's exports necessarily would be if great sums of money were thereby to be obtained and the menace this great increase would imply to the economic life of other countries. Conceding even this, it further remains that the sums in cash could not be immediately realized.

"Other considerations have been advanced at various times, among them the proposal that our former opponents in the great war should participate in the returns from German industry, either through taking shares of the capital stocks of German companies, or by other forms of the sharing of profits.
"Such a proposal would produce only proceeds in paper marks, valueless to foreign credits. Indeed, the allied and associated governments, themselves negated the proposals in the treaty of Versailles by taking for themselves first mortgage on the total wealth and all sources of income of the German commonwealth and state.

Credits Abroad.
"In addition to this, the allied and associated governments, in their deliberations at Paris, reserved for themselves the decision as to what opportunity, if any, Germany may in any instance be given to obtain credits abroad, because England and France are themselves in debt beyond their limit and the granting of a credit to Germany by a neutral power is blocked by the general mortgage.

"An international loan, in favor of which the allied and associated governments would waive the general mortgage, constitutes the only solution of the problem. The government of Germany is prepared to offer for the necessary securities for the safety of such a loan. It is the opinion of the German government that if the loan were properly organized and offered and if those who have evaded taxation be granted a general amnesty, the large sums of German capital which have secretly withdrawn from Germany could again be drawn in for the loan and thereby become available for the reparations."

"It has been reiterated by the allied and associated governments that the situation of Germany is better than that of many of the allied and associated countries, due to the fact Germany has no foreign debts. Germany would not be unwilling to assume the interest and amortization of the foreign debts within the limit of her capacity, should this measure be entertained by the allied and associated governments and their creditors."

"Germany stands ready to meet any proposal which appears feasible to the solution of the economic and financial problems of Europe and would invite the examination by unbiased experts of its own ability to make payments. It is the opinion of Germany that the heavy weight of debt now borne by all the states which were participants in the World war and the damages which were wrought in the course of that war, can not be laid upon the shoulders of any single people. Germany believes, also, that a policy of duress and coercion will not bring about the reconstruction of international economic life and that only by way of peaceful discussion and understanding, can such reconstruction be obtained. The German government considers it important to give with solemn emphasis the assurance that for its part it is honestly willing to follow the path which it has suggested."
—Simons.

Press Comment.
Paris, April 4.—American press despatches foreshadowing the contents of the note sent to the Berlin government by Secretary of State Hughes, are hailed with great satisfaction by the leading French journals.

"America's word," says L'Homme Libre, "comes as a powerful relief at a difficult hour of our history." Le Gaulois says: "President Harding's administration, deriving its authority fresh from the American people, brings powerful evidence of the people's friendship for France."
Pertinax is less enthusiastic, but says: "We can not say that France's case is fully understood in America, but the note shows the existence of favorable sentiments."
Le Figaro describes the note as signifying America's reentrance in international affairs and hopes the United States will join a "modified league."

D COMPANY CONVERTED
INTO HOWITZER OUTFIT

And Will Be Attached to Fifty-Eighth Brigade.

CAPTAIN C. V. PASCHALL
GETS ANNOUNCEMENT

Twenty Horses and Mules To Be Sent to the Company Middle of April.

Captain Gilbert V. Paschall received announcement that D company has been converted from an infantry organization to a light howitzer organization to be attached to the Fifty-Eighth brigade Fifth Corps area. Twenty animals and twelve guns are to be sent to the company about the middle of the month. This change is considered a high honor to D company, as there are only two light howitzer companies in the Fifth corps. The excellent showing of the company at Camp Perry last year was largely responsible for the company being picked for the honor.

The animals will consist of sixteen mules and four horses, the horses to be used as mounts for the officers. There will be six one-pound cannons and six three-inch mortars. The company will continue its infantry training, as it is the intention of the inspection department to use the company for demonstration purposes at camp next August. This year the company will go to Camp Knox, Siltion, Kentucky, where they will be national guard troops from Ohio, Kentucky, Indiana and Illinois.

Mr. and Mrs. James Roach Sunday returned to their home in Cambridge after a week's visit at the home of Mr. and Mrs. S. M. Medgies, of south Prospect street.

MRS. J. FRANK SMITH
AND DR. M'VAY SPEAK

Americanization Work Is Theme Sunday Afternoon.

Mrs. J. Frank Smith, of Columbus, an Americanization worker, delivered an address on "Americanization," Sunday afternoon at 2 o'clock, in the Y. M. C. A. auditorium. Mrs. Smith, who has been a worker in Ohio for the past seven years, was introduced by Mrs. Carrie Durr, instructor in the Americanization work in this city.

Mrs. Smith said that the mother-in-law at the present time were the ones most in need of help, as they were unable to attend the night classes as were the men and that now the women have the right to vote they should be taught civil government. "The children respect the parents more," Mrs. Smith said, "if they were able to speak the English language."

"America is the Melting Pot," Mrs. Smith said, "and because we have this conglomerate group of immigrants we are different from other nations. We must give our help and unless we do, these immigrants will not be assimilated into American ideals."

The speaker emphasized the fact that the foreigners came here with high anticipations and because they can not speak the English language they are isolated. Mrs. Smith illustrated her point by examples found among the dock workers in Cleveland and declared that a great many of them could be of great service to this country, if some effort were made to place them in some suitable position which they could fill.

Proceeding Mrs. Smith's talk, Dr. H. R. McVay, superintendent of the city schools, and chairman of the chamber of commerce committee on American ideals, gave a brief talk on the work in Americanization being done in the city by Mrs. Carrie Durr.

MARION SCOUTS WIN
FROM TOLEDO SCOUTS

Fifty to Seventeen, at Y. M. C. A. Gym Saturday Night.

The Marion Scouts planned another bouquet on themselves Saturday night when they trimmed the Toledo Scout team in a fifty to seventeen game on the Y. M. C. A. gym floor. The visitors made a fine get-away, but the locals came to the fore in the first half, where they remained throughout the entire game. Later started for Toledo while Griffin did some fine work for the Marion lads. Kanchel also did some sensational playing for the local scouts. Between the halves the Toledo scouts gave an interesting demonstration on first aid work, bandaging, using stretchers, wigwagging and building fire by friction. The line-up:

ALL SET! MEMBERSHIP CAMPAIGN FOR Y. M. C. A.

Hundred Business Men Entered in One-Day Drive Tuesday.

THEY'LL MAKE ROUNDS IN BOYHOOD'S INTEREST

Believe All Citizens Should Be as Much Concerned as They Are in Soliciting.

The Y. M. C. A. membership campaign will start tomorrow morning with about 100 of the city's business men in the harness as solicitors.

"Every citizen of Marion should be just as much concerned about the welfare of this great movement as these patriotic men who are giving their time and energy to make our Y. M. C. A. more efficient in its work for the young men and boys of Marion," said a statement issued by the Y. M. C. A. publicity committee.

"A strong and efficient Y. M. C. A. is just as necessary to a growing town, as new factories would be, as it gives our people here at home and helps us a good reputation abroad as being a good town in which to live, work and raise a family.

"Let's We Forget." "Don't say to the solicitors that the Y. M. C. A. is of no personal benefit to you, but remember that a few dollars spent for the other fellows welfare is not only an unselfish act but is the patriotic duty of every good citizen.

"Did you ever realize what the Y. M. C. A. has done for Marion boys in a financial way? There are fully 500 men in Marion that date their prosperity from the moment they entered the Y. M. C. A. night school. The education that these men acquired in branches like mechanical drawing, has added to their earning capacity at least \$10,000 per year.

One of Many Things. "This amount added to the productive wealth in Marion, right among our own citizens, is but one of the many wonderful things that our Y. M. C. A. is doing. "Can any one of us say, that we will not do our share by neglecting to at least become a member. Don't turn down the solicitor that calls up-

BACK TO OLD PRICE GOES DRECO JUST AS "SPRING TONIC" TIME COMES

Your favorite remedy is now sold at "before war" price. Announcement comes right when you'll be buying medicine to clean out your system

Just at the time many people will want to take a good medicine to clear out their systems and tone up the vital organs, the announcement comes that the old reliable remedy DRECO, favorite in thousands of families, is back to "before the war" price. This makes it economical enough for everyone to take a full treatment of this splendid medicine. DRECO is the same medicine of which Mrs. Almira Carlisle said, "I had pneumonia which left me weak, pale and thin. I became nervous, I'd roll and toss all over the bed not able to sleep. My bowels were constipated and my kidneys annoyed me day and night by being too active. "I took a treatment of DRECO and it is remarkable how I improved on it. Very soon my bowels became regular, kidneys were strengthened, my nerves quieted down so that I'd sleep all night long and my appetite grew daily. I've gained weight and strength till today I'm feeling as well as I ever did in my life." DRECO builds up the whole body and strengthens it, clears the blood of poisons and impurities, stimulates the liver into healthy action, corrects constipation and clears the system of malaria and biliousness. Women who have spells of depression and hives, poor circulation, hot flashes, numbness, no appetite, sleep badly and are pale and listless find in DRECO just what they need. DRECO is being specially introduced by The Rexall Store, and in Prospect by Osborn & Son, and sold by all druggists.—Adv.

**POST-EASTER CANTATA
AT EPWORTH CHURCH**
It Is Largely Attended Sunday When Two Automobiles Crash
Evening—Program.

"The Easter Message," a post-Easter musical, was given by members of the choir of Epworth M. E. church, assisted by the Sunday-school orchestra, last evening before an audience that taxed the capacity of the church.

The music was under the direction of Herman J. Brouwer, Mrs. C. L. Rutherford acting as soprano soloist; Miss Dora Jacobs, contralto; and Rex Robinson, tenor, with Mrs. V. E. Dombaugh presiding at the organ.

Director Brouwer led his singers from the low sweet strains telling of the Savior's death to the glad and jubilant notes of the glorious Resurrection with unusual artistic ability. The choir seemed to catch the fine and sympathetic spirit of the leader in the rendering of the different choruses and the great audience appeared to be lifted and inspired with the enthusiasm gathered from the beautiful story in song.

Many expressions of gratitude for the service and praise for the leader were heard as the audience left the church.

The program opened with an introduction by the orchestra which was followed with a chorus, "Ride on in Majesty." This was followed with a soprano solo, "Alas! and Did My Savior Bleed?" by Mrs. Rutherford. The next number was by a women's chorus, "Our Hope Lies Dead," followed with a men's chorus, "Your Lord Shall Rise."

The first part of the program closed with a chorus selection, "The Lord Is Risen Indeed." The first number of part two was "Now Is Christ Risen," by the chorus, followed with a duet, "We Too Shall Rise," by Mrs. Robinson and Miss Jacobs.

The next number was "Our Advocate With God," and the final closing number by the chorus was "Thanks Be to God."

If a man can save say 50 cents on a Spring Union Suit

by going to a store where he has never traded before—it's good business for him—and for the store.

And if a store can get along with 50 cents less profit per Union Suit—and in place of a New Customer to drop in and get acquainted—that is also good business for the store.

That's how we have figured—and figures don't lie. You can see the proof in black and white. See our side window.

Since commencing this campaign of selling Sexton Athletic Union Suits at 50 cents less per garment than the average asking we have been able to count a man in 20 new faces in the store in one morning.
